JUMPING ROSE

Eur 8,00

Our most favorite and stunning giveaway. You give someone from the audience a rose, and the moment he or she takes it, it jumps in the air. Can be used in any situation: on stage as a gift for an assistant, a close-up act, a promotional activity in a shopping mall or on a fair etc.

Easy to prepare, use and reset for next use. The jumping height is adjustable. Very effective. Comes with an imitation rose, but can be performed with a real flower as well.

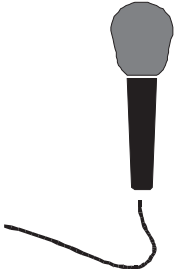

MAGIC TIE

Eur 24,00

The magician takes of his tie, which looks like a regular one but it isn't! As a miracle it becomes alive and obeys any command given by the magician. It rises and bows, and after use can be put on again. Suitable for use on stage and in close-up performances.

Available as a complete package including tie, or as a gimmick to be used with any tie. One-time preparation allows for performing the effect over and over again.

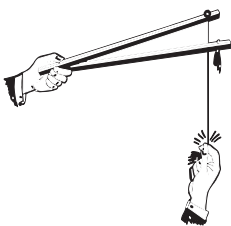

JUMPING MIKE

Eur 6,00

A similar effect to our successful Jumping Rose, but now in the form of a wireless microphone. The magician or host hands over a microphone to his assistant, but as soon as the assistant turns on the microphone, the head jumps into the assistant's face!

The jumping parts can't get lost and are made of foam so no one will get hurt.

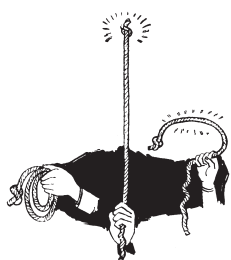

CHINA STICKS

Gold: Eur 50,00

White: Eur 42,00

The well-known trick, but you've never seen an exclusive version like this. After the trick has been performed, all parts of it (sticks, strings etc.) can be taken apart and handed over to a member of the audience for close examination. They won't find the trick!

Sticks (40 cm) with gold finish and red strings. Teflon coated for smooth operation.
Sticks (25 cm) with white finish and red strings. Teflon coated for smooth operation.

INDIAN ROPE

Eur 70,00

The known classic. The rope becomes alive and obeys any command. Our version includes the finishing touch that all others are missing. For the insiders: after performing the trick, the preparation closes itself and can't be seen.

To be used for floor shows and on stage. The rope is very flexible, and even allows hitting a knot in it.
